## TWO OF A KIND

### Verse #1:

Everyday the sun shines bright in the blue sky.  
Every night the moon shines bright somewhere.  
It's not gonna take a long time to love you.  
All you have to do is say you care.

### Chorus:

Two Of A Kind.  
Everything is gonna be fine.  
Two Of A Kind.  
Two Of A Kind.

### Verse #2:

Every single flower waits to bloom again.  
Every time I leave I miss you so.  
Somewhere in my heart and mind, I think of you.  
And there's only one thing I want you to know.

### Repeat Chorus:

### Bridge:

Seems to me to be true,  
Should be me and you.  
Just like day and night,  
Love you for the rest of my life.

### Verse #3:

Everyday the sun shines bright in the blue sky.  
Every time I leave you, I miss you so. Oh,...  
It never takes long for me to love again.  
And there's only one thing I want you to know.

### Repeat Chorus: (Vamp & End)

## LET YOUR LOVE COME DOWN

Verse #1:

Let Your Love Come Down.  
Let your love fall on me.  
Give me something to believe.

Chorus:

Let Your Love Come Down.  
Help me feel the same.  
Help me ease the pain.  
Let Your Love Come Down.

Verse #2:

Let Your Love Come Down.  
Let your love call on me.  
Give me something I can see.

Repeat Chorus:

Solo:

Repeat Verse #2:

Repeat Chorus: (2x's)  
(Vamp & End)

## IN THE NIGHT

Chorus:

In The Night.

She's gonna call out to me.

In The Night.

We're gonna fly through ecstasy.

In The Night.

I'm gonna love, and come to see.

Girl, In The Night.

Everything's all right.

In The Night.

In The Night.

Verse:

At the edge of the ocean.

She lives in a paradise.

And I have a notion,

That I need her in my life.

And it's clear to me, that I want her there.

There's no place I would rather be.

Repeat Chorus:

Solo:

Half Verse:

It's clear to me, that I want her there.

There's no place I would rather be.

Repeat Chorus: (Vamp & End)

## THINK I'LL STAY IN THE CITY TONIGHT

### Verse #1:

Fourteen miles from citadel, no one gets to go out.  
Fortified by garrison, soldiers move the line clout.  
Open-ended questioning will not come about,  
All tonight.

### Verse #2:

Megan surfs the Internet searching for the answers.  
Derrick hacks the mainframes crunching all the numbers.  
Yaslow flies jet airplanes over the Arctic Circle,  
All in vain. All insane.

### Chorus:

Think I'll Stay In The City Tonight.  
Think I'll Stay In The City Tonight.

### Verse #3:

Secret Service Agents, ride along the speed rail.  
Only two more hours before 'The Test' could fail.  
Somewhere at 8:30, keep the train to rail,  
All tonight.

### Verse #4:

I'm locked down for questioning. I don't know the reason.  
Long accused of treachery, long accused of treason.  
I just want my wallet back so I can start the season,  
Free from strife. Spare my life.

Repeat Chorus:

Solo:

Repeat Chorus: (Vamp & End)

**AFTER DAWN**

Verse #1:

I cannot see the glow of moonlight.  
Too many rain clouds hide the view.  
Somewhere a rainbow shines at nighttime.  
Can a song of labor rhyme so true? Ah, Ah...

Chorus:

She says she knows me.  
She says she'll see me,  
After Dawn.  
After Dawn.

Verse #2:

A cantilever spans the highway.  
The century spans the globe, the stars.  
When truth can finally find a byway,  
Then I can see the light this far. Ah, Ah...

Repeat Chorus:

Verse #3:

I think I'll find my heart this season.  
There'll be no pain, no sorrow, regret.  
Love don't need to find a reason.  
Love for me unclear as yet. Ah, Ah...

Repeat Chorus: (2x's)  
(Vamp & End)

## **EMPTY HEART**

Chorus:

Empty Heart. Open your heart again.

Empty Heart. Let your heart fly, and find a new friend.

Empty Heart. Maybe find something new.

Empty Heart. There's got to be something better than the blues.

Bridge:

Empty Heart don't know any better.

Empty Heart don't tell a lie.

May there always be a sun in the sky,

And clouds rolling by.

Half Chorus #1:

Empty Heart. Maybe find someone new.

Empty Heart. There's got to be something better to do.

Repeat Bridge:

Half Chorus #2:

Empty Heart. Open your heart again.

Empty Heart. Open your heart, and keep it 'til the end.

Empty Heart (Vamp & End)

## I STILL LOVE YOU SO

### Verse/Chorus #1:

Well, I got dropped off somewhere downtown.  
I believe it was raining. Water was soaking the ground.  
I know I can make it. That's one thing I know.  
I Still Love You So. I Still Love You So.

### Verse/Chorus #2:

Writing my new song. One that won't play too long.  
A song that has truth to say. True in the month of May.  
I know I can do it. There's one thing I know.  
I Still Love You So. I Still Love You So.

### Verse/Chorus #3:

Somewhere there's Music. Yeah! Somewhere deep in the soul.  
Something that makes you thrive. Keeps all your dreams alive.  
And you got to try it. There's one place to go.  
I Still Love You So. I Still Love You So.

I Still Love You So. (Vamp & Fade)

## OUR LOVE WILL LAST

Verse/Chorus #1:

Our Love Will Last.

Our love will always be,

Far from the past.

Future we'll see.

Verse/Chorus #2:

Our Love Will Last.

Tell you no lie.

We'll take our chance.

Look in my eyes.

Bridge:

So, when I say I love you so,

Something I'm needing to say.

And if we set our sights on sweet tomorrow,

Hope you find me here today.

Verse/Chorus #3:

Our Love Will Last.

Need you to know.

You will see that,

Our Love Will Last. Yeah!

Solo:

Repeat Verse/Chorus #3: (Vamp & End)

## **CLOSE ENOUGH TO KNOW**

### Verse/Chorus #1:

Years have drifted like clouds in a storm.  
I live my life like a man with no norm.  
You have changed through the years, time has shown.  
I should see the truth, and face the fact.  
Close Enough To Know.

### Verse/Chorus #2:

Your beauty has stayed like grapes on a vine.  
I just age, and grow restless over time.  
My thoughts in songs travel like strong winds blow.  
You should hear the brand new stack.  
Close Enough To Know.

### Bridge:

Daylight and nighttime to me feel the same.  
I search for answers, never complain.  
You listen close to gifts took for granted.  
Shapes of my dreams have turned sideways and slanted.

### Verse/Chorus #3:

Love will never find me, in work I've transpired.  
My views of passion only burn like fire.  
Stars in the Heavens suggest your fate is still to be known.  
I dream a blue sky.  
Close Enough To Know.

### Solo:

Repeat Bridge:

Repeat Verse/Chorus #3: (Vamp & End)
