Kiso Guitars and world class guitar designer luthier, Tom Ribbecke, from Healdsburg California, are proud to introduce you to the new KisoRibbecke jazz archtop.

A professionally designed and hand crafted instrument for serious players.

Our Business

We are the builders of Kiso Guitars. Getting them into your hands is our goal. So please come to our web site or contact us and we'll let you know where you can see and play one of our Kiso instruments.

Player's Price: \$4,500.00 w/case

Whether you buy your KisoRibbecke guitar at a music store, or from us directly at www.kisoguitars.com, or from one of our sales agents around the world, we offer you our "Player's Price" as the one price everyone pays to own a Kiso Guitar.

Made-To-Order

Our KisoRibbecke guitars are hand carved and created with specific owners in mind. If you are interested in playing and possibly ordering one, please contact one of our Kiso Showrooms or Kiso Guitars directly. It will be our pleasure to build one for you.

Warranty

We are proud to support the guitars we make for the original owner for the life of the instrument. As long as the instrument is well cared for and kept in appropriate environments, we are honored to offer a limited lifetime of warranty repair. Please see our detailed warranty for specific information.

Designed in Sonoma California

Hand built in the Kiso Valley
